REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

References Nimmo-Smith (US 2004/0137947), Rothenberg (US 7,155,179), West et al (US 6,252,910), Sawyer (US 2003/0025841), and Kumar (US 7,046,694) are cited because they are pertinent to the wireless communication system. However, none of the cited references teaches or suggests a wireless communication method comprising, in combination, the arrangements of the method steps of receiving a center modulated signal on a wireless channel n , a lower adjacent modulated signal on a lower adjacent licensed channel $n-l$, and a higher adjacent modulated signal on a higher adjacent licensed channel $n+l$; simultaneously processing the center modulated signal into a baseband signal and characterizing the lower and higher adjacent modulated signals; and, especially, sending a control signal to a transmitter of the center modulated signal based on a characterization of the lower and higher adjacent modulated signals as recited in claim 1 and the corresponding independent apparatus claims 7, 11, and 22 and further limitations of their respective dependent claims 2-6, 8-10, 12-21, and 23-26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings filed on 3/29/2004 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
